

# Infant Aiden Timothy Freeman

November 23, 2020 - November 23, 2020

There will never be a day that goes by, where I do not think of you.  
I will always think about what you would have looked like  
I will always wonder how it would have felt to hold you in my arms  
I will always miss not having the chance to comfort you, soothe you and nurse you  
I will always wonder what it would have been like to have you here with us.

My beautiful child,  
I know your passing will teach me to be stronger  
I know your passing will teach me to be more anchored in my faith  
I know your passing will teach me to be more grateful for all that I have been blessed with.

For you my baby,  
I will try and hold my head high and be strong because I was privileged enough to nurture you for those few precious weeks  
I will always feel honored to have had experienced the miracle of carrying you in my womb.  
I will never forget you  
I love you  
And I pray that I will be able to hold you, my beautiful baby when it comes my time to leave this world.

“ Dear Aiden this is your granny my name is Freda am your mom's mother and when I was told at 2 months your mom was carrying you, I was so excited to have my first grandchild by your mom and could not wait till day you be born, looking forward to the days we would spend together at the park, for ice cream and getting buy you an outfit and looking forward to being around you each day and at holidays. I know your mom will miss you and think of you each day. Your always have special place in her heart cause your her first born. I know your in heaven maybe were see each other one day and know that you was loved and be missed everyday. LOVE GRANNY.

“ Dear Aiden, I was so excited to meet you and all the things your mommy had waiting for you meant she was so excited and expecting to meet you. We were all very anxious to see you come here to the world. Like your granny mentioned taking you too the park and so on. Looking at all the things she bought made me think I was having you myself but we all love you very much and miss you everyday. Just wanted you to know that you are very loved.
